## **PRODUCT TECHNICAL STATEMENTS**

### **Includes: Warranty, Installation and Maintenance Information for Thermoclear**

#### **Thermoclear Warranty:**

Most Lexan Thermoclear products carry a minimum 10 year limited written warranty against excessive yellowing, loss of light transmission and loss of strength due to weathering.

#### **Thermoclear Installation:**

The flat structure of Lexan Thermoclear multiwall sheet allows the use of aluminium glazing bar systems for long lasting performance. Unlike some multiwall glazing products, the sheet can be easily cut to length of width, allowing for variations between construction and design.

Installation: Ampelite is able to supply various fitting systems to suit the application. For comprehensive installation details please refer to separate installation instructions on our web site at [www.ampelite.co.nz](http://www.ampelite.co.nz) or contact your nearest Ampelite office.

Sheet colours, sizes and spanning

Spans 700mm

10mm – 700mm Rafters @ 720mm, 1050mm Rafters @ 1070mm

16mm – 700mm Rafters @ 720mm, 1050mm Rafters @ 1070mm

#### **Thermoclear Maintenance:**

Rinse sheet with lukewarm water. Wash sheet with a solution of mild soap or household detergent and lukewarm water, using a soft cloth or sponge to loosen any dirt and grime. Rinse off with cold water and dry with soft cloth to avoid spotting. NOTE - Never use an abrasive or highly alkaline cleaner on sheet.
